ocw.camins.upc.edu

Course guides and academic materials for Barcelona School of Civil Engineering programs.

RESOURCES FOR TEACHING

Teaching software:

Programs required for academic activities. Most of them can be installed on your personal computers.

You can find more information at:

caminstech.upc.edu/serveis/programaridocencia

Computer Labs: A2-S102, A2-S110, B2-101 and D1-101 caminstech.upc.edu/serveis/aulesinformatiques

CaminsBROKER: remote access to the computer lab PC's (available in the evening and on weekends). caminstech.upc.edu/ca/serveis/caminsbroker

CaminsDESKTOP: remote access to a virtual desktop (available 24/7). caminstech.upc.edu/ca/serveis/caminsdesktop

Disk space (Drive P): You have 25 GB of personal storage for use on the School's servers. Attention! **Any files not saved on your P: drive will be deleted when the computer or remote desktop is restarted.**

CaminsAULES: Remote access to your personal space (P:) via a web page. caminstech.upc.edu/serveis/caminsaules

NEWS AND RELEVANT INFORMATION

New virtual desktops with graphics acceleration:

This academic year, the CaminsDESKTOP service includes new virtual desktops with GPU acceleration, allowing you to use all teaching software — including those with high graphic requirements such as AutoCAD, Revit, Paraview, among others.

These new desktops complement the existing ones and expand the service's usability for both students and faculty.

More information: caminstech.upc.edu/serveis/caminsdesktop

Cybersecurity Best Practices Workshop:

To strengthen security while working on a computer, you have access to this workshop. It's a short online training session that helps you avoid IT threats and risks, and better protect your personal data.

The UPC IT Department strongly recommends completing it.

CIBERSECURITY course:

edutic.upc.edu

IT SUPPORT

USER SUPPORT:

For any inquiries, requests, or issues, you can contact CaminsTECH (IT Services of the Camins UTG, caminstech.upc.edu) through our support channels:
